Profile

- Enthusiastic and driven individual skilled in **Artificial Intelligence and Machine Learning**, and **Data Science**, focused on building data-driven solutions.
- Currently exploring **Full Stack Development** with strong problem-solving skills and a passion for learning and innovation.

Education

Dayananda Sagar College of Engineering, Bachelor of Engineering - Computer Science and Engineering - Data Science

- CGPA: 9.65/10.0

Experience

Research Intern, Biomedical Engineering Society of India (BMESI)

- Contributing to **ICMR Research Project** on fetal anomaly detection using **Deep Learning** and **Explainable AI (XAI)**.
- Implementing and evaluating **TensorFlow** and **PyTorch**-based models to enhance interpretability and reliability in medical imaging analysis.

Technical Skills

Technology: Machine Learning, Deep Learning, NLP, Computer Vision, Data Visualization, Generative AI.

Languages: Python, C, C++, HTML, CSS, JavaScript.

Libraries/Frameworks: NumPy, Pandas, Matplotlib, Seaborn, OpenCV, Scikit-learn.

Tools/Databases: Power BI, Tableau, Excel, Oracle DB, MongoDB.

Projects

CAREER PATH PREDICTION

GitHub

- Developed an intelligent prediction system leveraging academic and experiential features like CGPA, internships, and certifications to forecast career outcomes — including Placement, Higher Studies, and Startups — with an integrated Student API Score Calculator.
- Tech Stack: React, Tailwind CSS, Python, Node.js, Express.js, Machine Learning.

UNIGLOBE

GitHub

- Developed an AI-powered university discovery platform using RAG architecture (FastAPI, Qdrant, Gemini AI) with semantic search and intelligent chatbot capabilities.
- The system assists international students in exploring and comparing universities across 10 countries with personalized admissions guidance
- Tech Stack: React, Javascript, Python, FastAPI, RAG, Qdrant.

DATA ANALYSIS OF GROUNDWATER POLLUTION

GitHub

- Performed EDA on water pollution data across Indian states to derive visualization-based insights.
- Tech Stack: Python, NumPy, Pandas, Matplotlib.

POWER BI DASHBOARD

Dashboard Link

- Created an interactive Power BI dashboard visualizing mobile sales data and KPIs for actionable insights.

Certifications

- **Machine Learning Specialization** – DeepLearning.AI | Certificate
- **Oracle Certified Generative AI Professional** – Oracle University | Certificate

Participation and Achievements

- **NASA Space Apps Challenge** – Hackathon Participant | Certificate
- **Deloitte Australia Data Analytics Job Simulation** – Forage | Certificate

Community Involvement

- **NSS** | Certificate
 - Created awareness activities for pollution control and environmental protection.
 - Participated in animal welfare and zoonotic disease awareness drives.
- **Sports** | Certificate
 - Actively participated in interdepartmental and intradepartmental sports events.
